Listing of Claims

Claims 1-18: Cancelled

19. (Currently Amended) A method for attaching a truck to a mating surface, wherein the truck and the mating surface have having a plurality of corresponding mounting holes passing therethrough, the method comprising:

providing a truck mounting assembly, comprising:

a pair of removable fasteners each having a head and a threaded shaft; and

a body having two opposed ends, each of the ends being rounded, the body also having a pair of spaced apart holes each passing through one of the two opposed ends therethrough, wherein each of the holes corresponds to a different one of the mounting holes of the truck; and is adapted to threadedly engage one of the removable fasteners;

removing a portion from the body between the two opposed ends to provide clearance between the body and the truck;

positioning the truck against the mating surface such that the corresponding mounting holes of the mating surface and the truck are aligned;

positioning the body of the truck mounting assembly against the truck, opposite the mating surface, such that the pair of holes of the body are aligned with the corresponding mounting holes of the truck, and such that the portion between the two opposed ends of the body does not contact the truck;

passing the threaded shaft of each of the removable fasteners through the
corresponding mounting holes of the mating surface and the truck such that the
head abuts the mating surface; and
threadedly engaging the threaded shaft of each of the removable fasteners with one of
the pair of spaced apart holes of the body, thereby attaching the truck to the
mating surface.

Claim 20: Cancelled
